Additive model: Eftedal et al.'s estimator vs. the revised estimator
V_A
$V_A^0 = V_A(1-m)$
m (mates' genetic correlation)
r (mates' phenotypic correlation)
Eftedal et al.
Eftedal et al. (corrected inverse variance weight)
Eftedal et al. + linear scale

Marginal Pair CI
Marginal Type CI
Both CIs drawn from the same point; the Marginal Pair CI is often narrower than the point itself
